The Old Production Nature

Prerequisites

To properly comprehend this perspective of the human being the reader must review and understand several areas of categorical doctrine:

- Angelic Creation
- Creation of the Angelic Home – the Physical Universe
- The Hierarchy of Angelic Society
- The Position of Lucifer as 'overseer' for God
- The Development of Arrogance in Lucifer
- The development of a Plan for Revolution by Lucifer – EVIL
- The initiation of the Revolution against God by Lucifer
- The Location of the headquarters of the Revolution – Earth prior to man
- The Packing of the Earth in Ice
- The convening of the Supreme Court of Heaven for the Angelic Conflict Trial
- The Presentation of Evidence by the Omniscience of God which was unquestionable.
- The Rendering of Judgment by God – based on:
  - The insult to the veracity of God from the LIE of Evil.
  - Violation of the standards and values of the Righteousness of God.
- The Condemnation of the Fallen Angels to the Lake of Fire.
- The Creation of the Lake of Fire by God
- The eventual lucid understanding by Lucifer of his inevitable fate.
- The Appeal to the Judgment by Lucifer
- The Acceptance of the Appeal by the Supreme Court of Heaven.
- The Decision by God to have a DEMONSTRATION for angels to refute the appeal.
- The 6 Day Restoration of the Earth for habitation by Man.
- The Creation of Man, a perfect lower creature with Volition equivalent to Angels.
- Placing Man in perfect environment on Earth – Eden.
- Providing the Volitional Test for man in the 2 trees
  - The Standards and Values of God under GRACE
  - The Standards and Values of Satan under Evil
- The Marriage of Ish & Ishah, Man & woman, establishing authority in this organization.
- The UNKNOWN time which Ish and Ishah lived in the garden.

Basic Character of God

God is perfect, and has 10 major characteristics which some Christians understand at least in part. However recognize that it is actually impossible to understand the character or essence of God because the limitations of human intelligence. The 10 characteristics are:

- Omniscience
- Omnipotence
- Omnipresence
- Veracity
- Integrity Composed of:
  - Love
  - Righteousness

    - Justice
- Sovereignty
- Immutability
- Eternal Life

We will only be concerned with a few of these, Integrity and Omniscience. Understand clearly the God being omniscient means he KNOWS everything, always has and always will and this cannot increase or decrease. Also one must realize that the Integrity of God has 3 composite parts, the Love of God, the Righteousness of God, and the Justice of God. The Love of God is the Motivation of the Essence of God, the Righteousness of God contains the Norms and Standards and Scale of Values of the Essence of God and the Justice of God is the function of God toward everything outside of the trinity. Whatever the Love of God motivates in Him must be acceptable and approved by the Righteousness of God before the Justice of God can function to perform the desired action.

The combined function of the entire Essence of God with emphasis on the Integrity of God and Omniscience of God, resulted in the development of the Grace Plan of God. The Grace Plan of God was designed for those created by God who remained aligned with the Norms and Standards and Scale of Values of God's Righteousness to receive all that they needed to exist from the Justice of God without any effort or production on their part. They had functions in angelic creation but these did not maintain their existence which was accomplished on the basis of who and what God is not what they did. In effect the Justice of God provided blessing for them because they consistently and continuously aligned with the Norms and Standards and Scale of Values of the Righteousness of God thus fulfilling the motivation from the Love of God.

All 3 members of the trinity participated in the organizing and approval of this plan and in its operation when it was instituted. God the Father was the administrator, God the Son was the executor and God the Holy Spirit was the empowerment and revealer of the plan. Understand the GOD KNEW in Eternity Past before they initiated creation that Lucifer would rebel and take ⅓ of the angelic population with him in revolution against God. They KNEW before creation began that Lucifer would appeal his sentence of condemnation to the Lake of Fire by impugning the character of God AND that they would have to engage a DEMONSTRATION for creation regarding the consistency of the function of the Essence of God whether for Blessing or Discipline. Angelic creation prior to the rebellion of Lucifer only had contact with the Justice of God for blessing motivated by the Love of God and approved by the Righteousness of God. Violation of the Norms and Standards and Scale of Values of the Righteousness of God causing the Love of God to motivate for Divine Discipline was totally NEW to them so that this demonstration was a necessity.

Grace & Faith

Grace is a plan a set of policies and procedures and provision of power, designed for the benefit of the creatures where God provides the power and does the work and the creatures receive the benefits which they cannot earn nor deserve and where their production is totally

based on the standards and values of the Grace Policies derived from the Righteousness of God so that God receives the credit.

Faith must be understood clearly. Faith is a non-meritorious system of perception based on the confidence in the authority and the veracity of another, in contrast to perception based on one's knowledge or reason. Faith has no merit for the one providing FAITH and the merit is based on the thing being "believed" or "accepted" and Faith in the Bible Doctrine related to The Lord Jesus, The Christ, the Gospel, means one is ACCEPTING the freely given gift of God the Father for his Salvation Adjustment to the Justice of God and doing absolutely nothing of his own effort or from his own power to acquire it. This is Grace where God does the work, provides all the needed power, and man receives the benefit and God receives the credit and man cannot ever earn nor deserve what he receives. Therefore, when God does the work and YOU receive the results of the work, receiving becomes a bonifide synonym for FAITH.

Definitions

- Sin is the Old Production Nature's Area of Weakness stimulating the soul to produce violation of the Norms and Standards and Scale of Values of the Righteousness of God in any way at any level.
  - Sin is not always Crime
- Crime is always sin which violates the Standards and Values of the Righteousness of God specifically laid out in the Laws of Divine Establishment and Divine Institutions.
- Carnality 'emphasizes' the Old Production Nature's Area of Weakness stimulating the soul toward these violations, however, carnality is not the believer sinning but the sinning believer's failure to engage in Rebound Adjustment to the Justice of God, failure to utilize the grace solution to sin.
- Reversionism is the believer's rejection, at any minor or major level, of Bible Doctrine and his involvement under the influence of Evil with production as good or sin.

Basics of Creation & Evil

In the creation of angelic creatures God provided them with perfection to live in but gave them VOLITION to enable them to choose to continue to live in this perfect state with him. Lucifer, as overseer of angelic creation who reported on the conditions to God directly eventually chose to think he could do things as well as God WITHOUT GOD and convinced many angels to follow him with their free will choices as well. This developed as a Plan from Lucifer called EVIL, which could be considered based on the Self Righteousness of Lucifer. The underlying purpose of this plan, according to the standards and values detailed in it, was designed for the Creatures under it to engage in the process of PRODUCING, establishing and maintain, an environment beneficial for them to exist and function in comfort in, based on their own POWER and Efforts guided by the standards and values of EVIL totally apart from God.

Vocabulary, when used to explain and discuss technical subjects must have extremely specific definitions so as not to confuse the one trying to understand the subject. With this in mind, consider that "EVIL" is used for many things in the English vocabulary but when referring to theological subjects, "EVIL" must be considered ONLY the policies and principles of the Plan of

Satan for controlling first Angelic Creatures and later Human Beings. EVIL is not a function and cannot be produced it is a PLAN with PRINCIPLES and a POLICY governing its functions. In other words one cannot DO Evil but he can under the standards of Evil do heinously terrible things. Conversely one cannot DO Grace but he can under the standards of Grace from the Righteousness of God do incredibly beneficial things.

The Demonstration of God

In the Demonstration set up by God for angelic creatures, He knew from His Omniscience that the lower creatures he would use would have to have a TEST situation to enable him to demonstrate the complete coordinated function of his character or essence and He chose to use this Plan of Satan, EVIL, with its production designed to benefit the creature so engaged, by his own effort and power, apart from God, for that test. We know of this from the book of Genesis as the Tree of the Knowledge of Good and Evil. The problem is that very few people ever consider the "good" mentioned here and what it in fact refers to. This Good as production from the function under Evil is referring to those things which are to be done to establish an environment for the existence of the creature which is beneficial to him, accomplished through is own efforts and under his own power but totally APART FROM GOD. When considering the Human Race we can call this "HUMAN GOOD" because it is production based on the Power and Efforts of the Human Beings, following the standards and values of Self Righteousness of Lucifer.

The Plan of God for Creation was, is and always will remain, GRACE. This Grace Plan was established based on the Norms and Standards and Scale of Values of the Righteousness of God, encompassing the entirety of the Essence of God, and was designed by God to enable Him to provide everything for His creation according to the Motivation from the Love of God, which had to be acceptable to the Righteousness of God, through the Justice of God when the creatures consistently aligned with those standards and values. Adherence to this Grace Plan resulted in any production by the creatures actually being always beneficial for them but it was production based on the power of God utilizing the talents and abilities of the creature but not exclusively based only on the efforts and power of the creatures. This we can call "DIVINE GOOD" because it is production based on the Power and Principles of God, particularly God the Holy Spirit who empowers the entire Plan of God and following the Standards and Values of the Righteousness of God.

Human History & The Garden

In the Garden of Eden Ish (Adam) and eventually Ishah (Eve) had the daily option of choosing for the Plan of God represented by the Tree of Lives or the Plan of Satan represented by the Tree of the Knowledge of Good and Evil both in the center of the garden. The were daily warned of the consequences which would arise from a wrong or bad choice which would be instant Spiritual Death followed subsequently at some future point with Physical Death. To the point of their decision to violate this prohibition from God they had only had contact with the Justice of God motivated by the Love of God with approval from the Righteousness of God because of their absolute perfection to provide them with daily blessings. God had put Ish in charge and They had created Ishah to be his companion in all things and this status quo

existed for an unknown period of time. It could have been a Day, a Week, a Month, a Year, 10 years, 100 years, 1000 years, 10,000 years or much more the duration of this is simply NOT REVEALED to us.

However, at some point in this Demonstration, as Satan looked on at the contentment and happiness of Ish and Ishah he was trying to figure out a way to destroy the demonstration and prove God wrong in his contention of absolute consistency in his character. Tis opportunity came when Ishah became BORED with her life in perfect environment. She began by rejecting the Authority of Ish and expanded that to the Authority of the Bible Doctrine Jesus came daily to teach them and finally rejection of the Authority of God the Son as he taught the doctrine to them. She did not pay attention to the information being presented and did not think it worth her effort to learn it and follow it. In her boredom she avoided Ish and avoided discussing things with him but instead chose to talk to some of her pets. Now it is possible that some of the pets had the ability to speak with her on a basic level. However, she should have been talking to Ish about her problem with boredom and frustration. She apparently was tired of Ish "lording it over her" all the time and wanted to be smarter than him and to show him how to do some things. In her conversations with her Pet (I like to think of this pet as a Dragon with fantastically powerful legs and beautiful wings and a long slender body with magnificent scaled skin) Lucifer saw his chance as her frustrations grew. He indwelt the pet and deceived her into thinking that choosing the fruit of the Tree of the Knowledge of Good and Evil over that of the Tree of Lives would make her smarter than Adam and as smart as God himself. And guess what SHE BOUGHT THE WHOLE LIE.

Ishah God all excited and grabbed Ish by the hand and took him to the center of the garden. She had made the assumption, having not paid attention during the warnings in bible study in the evenings, that any contact with the tree would kill her. Lucifer had convinced here that this could not be. So she walked straight up to the Tree of the Knowledge of Good and Evil and put her hand on it. Then with total excitement she turned to Ish while she was leaning against the tree and said, "Hey look at this, it did not kill me". Emboldened she then plucked the fruit and held it in her hand and again stated the obvious, "This did not kill me". Then she made the big mistake, she bit into the fruit and at of it. Instantly she became spiritually dead, she had KILLED in effect her Human Spirit thus putting her in a position of not ever being able to initiate contact of any kind with God. Ish watched her start to bite the fruit and screamed at her to stop but she did not and he could see the genetic structure of her body instantly change and said to himself, OH SHIT! What am I gonna do now?

Ishah realizing she had made a big mistake with a trembling hand held the fruit out to Ish. You have to understand Ish, a Man, like every REAL MAN understands that the most fantastic thing God ever did for mankind was create Women. Unfortunately many of them choose to make themselves unattractive from their thinking and actions but Ish had a woman with him that was in every possible way absolutely PERFECT in appearance and intellect. He LOVED her and did not want to lose her or leave her, so he CHOSE to take the fruit from her hand and eat from it himself. In effect they both had chosen to leave the GRACE Plan of God and enter into the EVIL Plan of Satan. This points to the reality of human existence. Man, no matter

how capable he may think himself MUST have a power system to function under. He cannot survive on his own with this support. Every human being from Ish and Ishah to You and I must choose whether we will function under the Power System of Satan or the Power System of God. Ish and Ishah had thus chosen the Power System of Satan and it had resulted in a genetic distortion of their perfect human bodies. This genetic distortion is passed down from Adam as part of his curse to every born human being during the process of fertilization during reproduction.

Col. R. B. Thieme Jr. has labeled this distortion the Old Sin Nature and this is a perfectly fine title for the inherent genetic flaw of mankind. This results, at the moment of his physical birth in his being born physically alive with Soul Life imputed to the Biological Life of the emerging fetus by God but totally lacking a Human Spirit thus being spiritually dead. God them assigns the culpability for Adam's Original Sin to this genetic distortion in every born infant and that requires him to condemn them based on possession of this Sin and its genetic home. Col. Thieme described the Old Sin Nature as being composed of Lust Patterns, Desires of the Body; Trends toward either Ascetic legalism or Lascivious lawlessness and having 2 areas which produce motivations or stimulations thrown up against the Volition of the soul, the Area of Weakness and Area of Strength. The Area of Weakness stimulates the soul for the production of Sin or Crime, the Area of Strength stimulates the soul for the production of things which are desired to be for the benefit of Man. Col. Thieme used this title, the Old Sin Nature, basically to emphasize the failures of man in producing SIN, however this emphasis tends to down play the true function of this genetic distortion. I would suggest the Title of Old Production Nature which better suits the genetic distortion present in every human being.

Categories of Production

One must clearly understand the function of the Genetic Distortion of the human being which resulted in a Predisposition to Produce. This predisposition to produce NEVER STOPS FUNCTIONING. The nature or category of man's ongoing production is based on the Policy and thus the Standards and Values he functions based on, and the Power System he functions under. The predisposition toward production by the human being after the fall in the garden can occur in 3 categories:

- Good (2 subcategories)
  - Production using the assets, abilities and talents of man under his own power resulting from function within the Plan of Satan, EVIL, based on the standards and values of the Self Righteousness of Lucifer revealed in the Cosmic Dynasphere systems, for his own benefit, individually or collectively, totally APART FROM GOD.
    - For the detriment of Mankind, individually or collectively
  - Production using the assets, abilities, and talents of man under and directed or controlled by the power of the Filling of God the Holy Spirit resulting from function under the Plan of God, GRACE, based on the standards and values of the Righteousness of God revealed in the Divine Dynasphere, for his own benefit, individually or collectively, TOTALLY DEPENDENT ON GOD.
    - For the benefit of Mankind, individually or collectively

- Sin
  - Sin is a category of production which violates any of the standards or values of the Righteousness of God
    - Is always for the detriment of mankind (which is not always crime)
- Crime
  - Crime is a subcategory of the production of Sin which specifically violates the standards and values of the Righteousness of God set up by God for the protection of the Human Race under the Laws of Divine Establishment and Divine Institutions.
    - Is always for the detriment of mankind (which is always sin)

The results of man's production can ultimately take 1 or 2 directions without regard to their intended results:

- Beneficial to man, individually or collectively
- Detrimental to man, individually or collectively

Under some situations what begins with the intention of being beneficial to man leads to results which end up being detrimental to him and in some situations what begins with the purpose of being detrimental to man causes results which end up being beneficial to man. Socialism is designed to benefit the unsuccessful or failures in society by making them equal to the successful at least with regard to materialism but it inevitably destroys the society by destroying the purpose for man to exist in the first place, FREEDOM. Capital Punishment is designed to destroy the individuals engaging in criminality which would destroy the society but when properly conducted it undoubtedly benefits the society. The same occurs with WARFARE which when Justly engaged in is designed to destroy the aggressive nations trying to extend their tyranny and destroy freedom in the defending nations but unquestionably results in benefit for the entire Human Race by giving future generations the equality of opportunity and privilege of exercising their own freedom for their own benefits.

Production & the Plan of Satan

The Plan of Satan, the Power System of Satan is composed of 2 major functional components and a process designed to result in destruction of any possible spiritual life functions. These are the Interlocking System of Arrogance, the Interlocking System of Antagonistic Emotional Hatred, and the Process of Reversionism. This Plan of Satan was designed to have the creatures PRODUCE using their own efforts and power for their own BENEFIT, for their own GOOD; APART FROM GOD. God chose to use this PLAN to test Ish and Ishah. When they failed God's test and chose to enter this Plan their Genetic structure became predisposed to PRODUCTION for their own benefit using their own power Apart from God. This is exactly what Satan wanted and anticipated when they would become subject to his Plan. The first act of Adam and Eve in the garden was to Clothe themselves with leaves, which actually infers in the original language that they were engaging in Efforts apart from God to Produce under the Power System of Satan for their personal benefit, adjusting to each other. Every individual from the moment he can do anything for himself, even immediately after birth when the infant screams because he is hungry or has a load of excrement which is making him very uncomfortable in his diaper, is engaging in PRODUCTION or attempted production or efforts

FOR HIS OWN BENEFIT. The infant is in fact engaging in training his parents to provide what his immediate needs may be. Man is born under the system of the Cosmic Dynaspheres and lives his entire life engulfed by that System and is constantly stimulated by his physical Lust Patterns motivating his Physical Trends to activate his Old Production Nature to stimulate his soul to engage in the use of his own efforts to produce in life for his own benefit either individually or collectively. This is a DAY IN and DAY OUT pattern constantly occurring in the life of every person.

Unfortunately this production as a predisposition of the Old Production Nature in man cannot ultimately result in any benefit for man either individually or collectively when it uses the standards and values under the policies of EVIL for its function because they are FLAWED. Though production under Evil may initially appear to benefit man individually or collectively ULTIMATELY, in the long run, it will result in destruction of detriment for him. All function under EVIL are based on Arrogance which is a preoccupation with Self or Antagonism which is a preoccupation with others and can therefore NEVER result in production which will consistently benefit man.

Therefore, Man being born into the Cosmic Dynasphere systems based on Evil begins his life functioning to PRODUCE for his own benefit based on the standards and values of this system of Evil. He must choose to leave this system by making Salvation Adjustment to the Justice of God and entering the Plan and Policy of God, GRACE to correct his production. Under the system of Evil, when functioning according to the standards and values of Evil, man's production CANNOT benefit mankind, either in the immediate future or distant future, either individually or collectively. However, because man is living under the system of Evil, God knew man would ultimately destroy himself so he established standards and procedures for the protection and preservation of mankind. These are encompassed under the principles of the Laws of Divine Establishment and Divine Institutions which protect man and are designed to emphasize his FREEDOM which is the KEY to the DEMONSTRATION of God for angelic creation. Therefore, Man living under the system of Evil, IF he functions according to these established standards of God in the Laws of Divine Establishment and Divine Institutions can engage in Production which WILL benefit mankind.

Production & the Plan of God

IF while functioning under the system of Grace man chooses freely to violate some standard or aspect of the character of God he commits SIN which removes him from the system of GRACE, the Plan of God, and places him back under the System of EVIL, the Plan of Satan. Under these circumstances his production shifts instantly from the standards of Grace to the standards of Evil and is either immediately or eventually destructive to mankind.

However when the individual chooses to leave the Power System of Satan for the Power System of God by making Salvation Adjustment to the Justice of God through faith alone in the Substitutionary Spiritual Death of The Lord Jesus, The Christ alone for his personal sins, he now is able to function in a different fashion. Now his predisposition to produce from the Old Production Nature continues to function but is now brought under and guided by the standards and values of Grace in the Power System of God derived from the Righteousness of God using

the Power of God in the Divine Dynasphere system from the Filling of God the Holy Spirit and ALWAYS IS FOR THE BENEFIT OF MANKIND both individually and collectively. In addition, when this production is most effective because the believer has reached Maturity Adjustment to the Justice of God, it is combined with several categories of direct blessing from God for his personal benefit and the benefit of those in his periphery. This is the Escrow Super – Grace blessings in 6 categories for the mature believer.

Therefore, whenever man operates or functions in the Power System of Satan, into which he is born since the fall of Adam and Eve, according to the standards and values of the Self Righteousness of Lucifer, EVIL, his production cannot ever result in benefit to man, individually or collectively. Conversely when man operates or functions in the Power System of God, into which he must CHOOSE to be born again and regenerated since the fall of Adam and Eve, according to the standards and values of the Righteousness of God, GRACE, his production ALWAYS results in benefit for man, individually and collectively. This production always benefits mankind and also is the basis for addition personal decorations, rewards and blessings for all eternity; thus it has a spiritual value. Now it is possible for the person who has not chosen Salvation Adjustment to the Justice of God and entrance into the Power System of God to produce, while living under the Cosmic Dynasphere systems but NOT functioning according to the standards of EVIL based on the Self Righteousness of Satan, but operating under the standards and values of the Righteousness of God revealed in the Laws of Divine Establishment and Divine Institutions. He can choose on a limited basis to function under the standards and values which God has set up to protect and preserve the ENTIRE Human Race, to engage in production under these standards which will be production which is beneficial to man, individually and collectively. However this production will not provide any eternal benefit for him. It might include such things as Patriotism, Military Service, Law Enforcement service, and many other aspects of function which support the nation under the Laws of Divine Establishment and Divine Institutions.

Production & Sin

Now in addition for both the individual who rejects the Power System of God and those who accept it there is an addition factor to consider. Satan wanted man to engage in production under his Evil policies and plan for the creation of an environment Apart from God where man could live in comfort using his own power and effort. He may even have anticipated the Spiritual Death of man possibly even the genetic distortion of the human body but it is unlikely he anticipated that this genetic distortion would have 2 areas of motivation for PRODUCTION. The one which I would consider to be dominate the Area of Strength motivating for the production for the benefit of man, Human Good production by the unbeliever, converted to Divine Good production by the "spiritual" advancing believer. However there is also the Area of Weakness which motivates for production in violation of the standards and values of the Righteousness of God. This production can be in 2 categories as well

- Crime – Violations of the Laws of Divine Establishment and Divine Institutions as standards from the Righteousness of God for the protection and preservation of man.
- Sin – Violations of ANY of the standards and values of the Righteousness of God

Because of the existence of production by man of Sin the efforts of man to produce for his own benefit under the standards and values of EVIL always degrades into being non-beneficial for man.

The person who has not made Salvation Adjustment to the Justice of God is always motivated to produce and always trying to do things for his own benefit individually or collectively and many times this involves function in violation to the standards of God thus invalidating the benefit desired from the production. The person who has made Salvation Adjustment to the Justice of God is always motivated to produce and when he is aligned with the standards and values of the Righteousness of God and functioning under the Filling of God the Holy Spirit his production is Divine Good, for the benefit of mankind and for his spiritual benefit in eternity as well. However, the believer in The Lord Jesus, The Christ CANNOT produce Human Good while functioning under the Filling of God the Holy Spirit in the Divine Dynasphere and MUST first accept the stimulation of the genetic Old Production Nature to violate some standard of God before his stimulation to produce for the benefit of man can be Human Good production. Again this production can benefit man if it follows the policies and principles of the Laws of Divine Establishment and Divine Institutions or it can ultimately be to the detriment of mankind if it is focused on the policies and principles of Evil.

Production & the Spiritual Life

A consideration which must be addressed is of what value is any production to the Spiritual Life or the Christian Way of Life for the believer. ALL production accomplished under the standards and values of the Self Righteousness of Lucifer, whether that individual has remained in the Power System of Satan since birth or has fallen back into that power system after regeneration and choosing to reside in the Power System of God as a believer in The Lord Jesus, The Christ, is of no lasting spiritual value. For the individual who has remained in the Power System of Satan since his birth, whether he produces under the standards and values of Lucifer according to the principles of the Cosmic Dynasphere systems, as a part of Evil, or under the standards and values of God according to the Laws of Divine Establishment and Divine Institutions as part of Grace, there is no lasting spiritual value. However, every aspect of production which occurs by the individual who has chosen to function in the Power System of God under the standards and values of the Righteousness of God revealed as any aspect of Bible Doctrine as a part of GRACE, using the power of God the Holy Spirit while residing in the Divine Dynasphere has immediate and eternal spiritual value. This has immediate spiritual value to mankind as it reflects the Spiritual Life of the believer to all those in his periphery under the functions of his Royal Ambassadorship directed toward mankind. In addition it has far reaching spiritual value to him personally so that when he stands at the Judgment Seat of Jesus Christ for evaluation of his production in life he will be granted eternal decorations, rewards and blessings as a "good and faithful servant" of The Lord Jesus, The Christ.

The Unique Perspective

Thus a unique perspective arises where ALL production is motivated by the Old Production Nature, the Old Sin Nature, sometimes, when under the standards and values of the Cosmic

Dynaspheres it is for Human Good and sometimes when under the standards and values of the Divine Dynasphere it is for Divine Good. It is man's intrinsic nature, his predisposition to PRODUCE just like it is the nature and function of the SOUL of man to draw in through its knowledge vacuum, information, it being originally designed specifically to function with Absolute Truth but it very often can and does function exclusively for the intake of FALSE Information, the Lie of Evil.

Solutions to the Old Production Nature

The solution to the problem of the genetic Production Nature is found in each stage of the plan of God.

Phase one, Salvation Adjustment to the Justice of God:

- Retroactive positional truth from the Baptism of God the Holy Spirit along with the Indwelling of God the Holy Spirit, breaks the power and the authority of the Old Production Nature.
    - This gives the believer the OPTION of operating under the stimulation from the Old Production Nature or under the stimulation of God the Holy Spirit.

Phase two, the believer living in time:

- The experiential power of the genetic Production Nature is broken through reaching and maintaining maturity adjustment to the justice of God.
- This involves two Adjustments to the Justice of God:
    - Rebound Adjustment to the Justice of God when necessary as a result of sinfulness
    - Temporal Adjustment to the Justice of God having a consistent positive attitude toward Bible doctrine

Phase three, the believer after physical death:

- The Production Nature being genetic dies out when the Human Body dies so that the interim body and resurrection body will both be devoid of the Production Nature.
- Therefore, at the Judgment Seat of Jesus Christ the evaluation of the believer's PRODUCTION will not be a physical occurrence but a matter of examination of his culpability for it.
    - Therefore, his culpability for Human Good production will be evaluated in comparison to the Divine Good production of the efficacious expiatory Substitutionary Spiritual Death of The Lord Jesus, The Christ and his eternal blessings, rewards and decorations will be based on how little Human Good he has produced and how much Divine Good he has produced.
    - Then the culpability for Human Good production will be removed "BURNED" as with fire, it will be an intense evaluation and judgment of it and he will be forgiven for it or cleansed from it.
    - I don't think this will be an actual physical burning although I would like to see the puffs of smoke coming out of the Judgment Room when it happens and would suggest that people put on their gas masks when I enter.
